TOWN MANAGER ~ Cynthia Burger

The original Safety Grant provided that INDOT would be responsible for 100% of construction costs and the Town of Newburgh would be responsible for 100% of engineering expenses. Due to funding issues, the project has been on hold for approximately two (2) years. With new parameters now in place, the Town is responsible for 10% of construction expenses with INDOT paying 90%. The original construction cost was \$292,000; the current cost is anticipated at \$460,000.00. Through negotiations with CEI, INDOT, Evansville MPO, and Ms. Burger, it has been determined that INDOT will pay 100% of \$292,000.00 and 90% of the difference (\$168,000.00). The town will be responsible for approximately \$16,000.00 (10%) of the construction cost difference. CEI estimates between \$2,500.00 and \$3,000.00 to complete engineering work on the project. Land acquisition costs should be minimal.

The Lincoln Avenue widening project is now in the right-of-way acquisition phase. BLA is proceeding with final tracings. The project could be let for bid this spring.

Blankenberger Bros. is the unofficial low bid for the Phase II SR 66 project in the amount of \$19,293,875.10. This amount represents \$3,000,000.00 over the estimated amount to complete the project.

A common construction wage committee meeting is scheduled on Tuesday, March 18, 2008. Wages will be set for a twelve (12) month period and will cover eight (8) possible sanitary sewer projects.

Yard waste pickup will begin two (2) weeks early this year. Local media has been notified of the March 21, 2008, date for pickup to begin for the season.

The recently donated trolley is now at Ruxer Ford and moving forward with needed repairs.

The spring newsletter will be distributed during the second week of April. The Newburgh pool will be highlighted.
